## **SOLID PROGRESS FOR ORNATE INTERIORS! Pudsey Firm Scoops Prestigious Industry Award February 2010**

Specialist plastering firm Ornate Interiors, based in Pudsey near Leeds, has once again been recognised as one of the premier names in UK plastering after scooping the Humber Salver for Internal Plastering at the FPDC (Federation of Plastering and Drywall Contractors) Awards in London.

The 21-year-old business picked up the award for the internal plastering carried out at Newcastle's Haymarket Hub, a new metro station in the heart of the city and also collected a highly commended award in the Fibrous & GRG Heritage category for work at a private Georgian residence in Cheshire. In 2006 Ornate Interiors picked up the Plaisterers Award for its stunning work at a private chapel in the north of Britain.

The judges, Ian Pollitt and Bob Armstrong, described this as "A spectacular job that not many companies would dare to take on. With a large dome over 18 metres across and over two floors and lunette windows represents a true test of the plasterers' craft. The setting out was more than impressive with surfaces constantly curving in two directions."

Business Development Manager Sue Clifford commented: "This is another terrific accolade for Ornate Interiors and is a tribute to our hard work and commitment to excellence. It's an award that should be dedicated to every one of our 18 employees.

"The work we carried out at the Haymarket Hub, which opened to the public last year, involved an innovative approach using Knauf projection plastering in what was a challenging, curved wall environment. Feedback from all of the judges on our work there and in Cheshire was outstanding.

"This year there were over forty shortlisted entries with nine awards spread over six categories and we're delighted to be recognised in two areas of work in which we excel," added Sue.

The premier event held on February 2<sup>nd</sup> at the prestigious Plaisterers Hall in London recognises the best work from within plastering, drylining and associated trades. There were over 300 guests attending the event including industry leaders, architects, manufacturers and distributors.

Ornate Interiors Ltd, established by brothers Ronnie and Iain Clifford in 1989, has grown impressively in recent years on the back of traditional and fibrous plastering work carried out principally for stately homes, listed buildings, hotels, churches, homes and theatres across the UK and Ireland as well as carrying out a range of specialist plastering techniques.
